

# Would you like to be a... local energy advice volunteer?

[No experience necessary]

*Help to  
organise  
and run local  
events to raise  
awareness of  
energy issues*

Accompany advisors on home visits to advise on energy saving changes and managing bills

Help people take advantage of any grants or support available to them

Give talks to local groups

The Centre for Sustainable Energy is a charity working across Bristol, former Avon, Somerset and Wiltshire to support people living in cold homes or having difficulty managing their energy costs. We're looking for people who can spare some time to help us with providing home energy advice to people in their local area.

Volunteers should have an interest in energy and climate change and a desire to help others.

## What we provide

We'll give you basic training on energy efficiency and giving advice and you'll receive lots of 'on the job' training as you are out and about with our advisors. You'll be joining a sociable team of volunteers with regular team meetings, training opportunities and one-to-one support. All out-of-pocket expenses will be reimbursed.
